EPA Pre-Renovation Lead Information Rule Certification Workshop

August 28, 2008

**Braintree Village Apartments
2 McCusker Drive
Braintree, MA**

This curriculum was developed by HUD and the EPA specifically for maintenance and administrative staff and contractors that may conduct routine maintenance and repairs on surfaces the contain lead-based paint.

HUD requires this training for all pre-1978 properties that receive any Federal assistance or funding. This training will become mandatory for all contractors beginning 2010.

Course Overview

Who should attend this workshop?

This training is required for staff and outside contractors that conduct work on properties that receive federal funds. It will be mandated for all contractors in all properties beginning in 2010. The certificate from this class will allow you to be “grandfathered in “ for 2010.

This Course...

- * Meets HUD Requirements
- * Demonstrates your commitment to safety

The course includes activities and exercises to help you identify methods of reducing the amount of dust you create, and containing and cleaning up the dust you created. There will be a 25 question multiple choice exam at the end of the workshop that you must pass in order to receive a certificate. The exam is also available in Spanish.

NEAHMA

The New England Affordable Housing Management Association (NEAHMA) was founded in 1989 to facilitate communications between management agents and the local and regional HUD and state Housing Finance Agencies. At monthly membership meetings, agency representatives and NEAHMA members work together to find solutions to current affordable housing issues.

NEAHMA's membership consists of property management companies representing over 50,000 units of affordable housing in Massachusetts, Connecticut, Rhode Island, Maine, New Hampshire and Vermont. NEAHMA is a member of the National Affordable Housing Management Association (NAHMA).

NAHMP™ Designation

The National Affordable Housing Management Association (NAHMA) national Affordable Housing Maintenance Professional (NAHMP™) credential was conceived and designed to recognize those affordable housing maintenance professionals, who, through their completion of strict NAHMP™ requirements, have met the highest possible industry standards. The successful NAHMP™ has demonstrated comprehensive apartment maintenance skills along with a proven knowledge of fair housing regulations. Most importantly, NAHMP™s, through their commitment to the NAHMP™ Code of Ethics, are dedicated to providing safe and decent housing to all eligible residents.

.Education: The education component consists of successful completion of course work in at least four different maintenance-specific topics, as well as fair housing. (Maintenance topics can include but are not limited to electrical, plumbing, HVAC, Appliances, construction, etc.)

For more information on the NAHMP™ designation, please call the NEAHMA office at (781) 380-4344.

INSTRUCTOR

Scott Balfour ~ Bio

Mr. Balfour is the President of Lead Test Inc., a full-service inspection and consulting firm. His clients have included the U.S. Navy and Army, the F.D.I.C., universities and numerous housing authorities and rehab programs from around the county.

He is an adjunct faculty member and principal instructor of Inspector and Contractor Training with the Workplace Health and Safety Program at Cornell University. Mr. Balfour was the first Licensed De-leading Contractor in Western Massachusetts and was one of the first lead inspectors in Massachusetts to earn the title of Master Lead Inspector. He has been active in the lead inspection and abatement field for over twenty five years and has been a trainer/consultant for the last twenty.

Mr. Balfour has trained over 6000 students and has participated in lead training programs with Health Departments and rehab programs throughout the country. He has been a guest instructor for the White Lung Association and various labor organizations and is a regular trainer with Georgia Tech and ICF. He has also trained with the Institute for Environmental Education, the University of Massachusetts, RMD, and the Midwest Training Center at the University of Chicago.

Mr. Balfour is an OSHA outreach trainer and teaches the OSHA 10 hour and 30 hour classes for the construction trades.
