Program Overview

Bed bugs are increasingly becoming a problem within residences of all kinds, including homes, apartments, hospitals, hotels, cruise ships, airplanes, dormitories and shelters. Bed bugs are not caused by sanitation issues. They can be even in the cleanest and most expensive vacation spots. If you travel, vacation, or use any type of public transportation you are very susceptible in bringing these insects into your home. Legions of tiny bloodsucking bugs are biting their way through America, leaving unsuspecting victims with itchy bites.

With the recent acknowledgement given to the spread of Bed Bugs by the EPA, Braman Termite & Pest Elimination will conduct this presentation to inform and educate you on the procedures necessary to prevent and eliminate these pests. Braman will also share travel tips and precautions that can be taken to avoid bringing home these uninvited guest.

Braman's 121 year old company has been treating complexes, dormitories, homes, hotels, and hospitals throughout Massachusetts, Connecticut, NY, and RI and strives to keep the public informed and educated on the health issues, precautions and treatment procedures.
