Gardner Domestic Violence Task Force

Keeping Our Community Safe

GardnerDVTaskForce.org | 978-699-2030

VISION

To create a community where everyone has access to the support services they need to thrive. We believe that everyone deserves to live a healthy and fulfilling life, and we are committed to working towards this goal every day.

APPROACH

We take a holistic approach to community support because we believe to truly support individuals and families, we must address all aspects of their lives, including physical, mental, and social health. As such, we work closely with a variety of community partners (law enforcement, healthcare providers, schools, etc.) to ensure that we are meeting the needs of the community.
